

## WHY and HOW TO GIVE

It has been forty years since the members of Park Road Baptist Church were engaged in a project such as this – in a challenge to let their faith, through their support of their own church, take such priority in their lives. This project will challenge us all. Without a commitment from our full membership, above and beyond regular giving to the church, this project will not be possible. Stewardship and building campaigns are not just about money. They are about commitments and priorities.

We believe the time is right in the life of Park Road Baptist Church for us to accept such a challenge – the challenge to build a building, as a symbolic and significant indicator of our commitment to this particular community of faith. The church has said, through every conversation, every vote, every step along this long and careful process, “We believe that now is the time for us to act.” We agree, because when this project is completed, we believe we will be a stronger community, not because we have more bricks and mortar on our campus, but because we have joined together, committing that which we *treat* as if it is most important to us—our money, to that which we *know* is most important to us—our community.

**Will you join us?** For what we are building at Park Road Baptist is not a building – but a church, a community, a common life together. And we believe this church, this community, and this common life are worth it!!

**HOW to GIVE?** Say “YES” by sending a Confidential Pledge to our church office!!! A printed version of the pledge card is available online by clicking back to the capital campaign home page.
